## SUMMARY

Talented Full Stack Web Developer with highly skilled in HTML, CSS, JavaScript, React.js and other web development tools. Proven ability to develop and maintain scalable web applications. Applying for a position as a Full Stack Developer with the goal of creating innovative and user-friendly web experiences.

## EDUCATION

### B.tech Computer Science

MIT World Peace University • 8.59

July 2021 – Present, Pune

### 12th Science

Minor in Electronics • Tywade Jr. College • Nagpur • 2021 • 92%

July 2019 – 2021, Nagpur

## EXPERIENCE

### Full Stack Web Developer

Oasis Infobytes

August 2023 – Present, Delhi

- Focusing on creating an intuitive and visually appealing UI for a pizza-making website, combining technical expertise with creative design skills.
- Emphasizing user experience by leveraging frontend technologies to craft an engaging interface that enhances the overall functionality of the platform.

### Frontend Developer

Internship Studio

July 2022 – August 2022, Pune

- Engineered a meticulously designed and thoroughly tested codebase for a comprehensive E-commerce Website, encompassing a dynamic Product Page, robust Search Page, and user-centric Profile Page.
- Exemplified exceptional project management skills by consistently meeting critical project milestones within specified deadlines.

## PROJECTS

### E-commerce App

P&D Electronics • June 2023 – Present

- Developing a e-commerce website, leveraging React.js for the frontend and Node.js for the backend to create a seamless user experience.
- Implementing cutting-edge technologies and design principles to build an engaging platform, with an emphasis on user-friendly navigation.
- Additional focus on optimizing performance and security, ensuring a robust and secure e-commerce solution.

### Codeial

Coding Ninja • August 2022 – February 2023

- Codeial Project: Utilized Node.js, EJS, MongoDB, and CSS technologies.
- Spearheaded the development of a Facebook-like application using EJS, Express, and Passport for authentication.
- Implemented a user-friendly UI/UX design, facilitating seamless user sign-in and sign-up experiences.
- Implemented Chat Box with the help of Socket.io.

## SKILLS

Languages: Java, JavaScript, HTML5, CSS3

Frameworks: React js | Node js | Express

Databases: MongoDB | MySQL

Developer Tools: Git | Github

## INVOLVEMENT

### Head

MIT WPU • Innovation Hub • October 2021 – Present

- Project Leadership: In the role of Head of the Innovation Hub, I provide leadership for various projects within the hub, overseeing their planning, execution, and successful completion.
- Mentorship: I offer guidance and mentorship to students, helping them navigate their innovative ideas and turn them into tangible projects.
